The **dynamic Center** for the Arts that we are creating will **change the future** of New Hope. It will provide a boost to the area economy and further New Hope's reputation as a top arts destination while enriching the lives of artists, residents and visitors to the area.

By **purchasing the property** we are establishing a Center that will be here for you, your children and your grandchildren . We **need your help**. All contributions are welcome. Join us on February 28 to learn more about the many ways you can help make this dream a reality.
